**Some of the formal complaints positively identified alleged perpetrators. These complaints were submitted to the authorities.**

**We have identified a number of inefficiencies in how the complaints are being processed and we are working with the Municipality to find solutions**

# Other Matters

---

Our affiliated eThekweni-based groups are keeping us updated on the evolving situation regarding the chemical plant being built at Dube TradePort. They have requested a copy of the EIA for the project from the Premiers Office and an explanation of why there was no public participation before the project was approved? No response has been received yet. We will inform interested and affected residents of KwaDukuza about the date of public participation when it is announced.
